“2019 has continued to be dominated by an ongoing sense of uncertainty for businesses across the UK in light of further Brexit delays. In our recent Corporate newsletter we canvassed our professional network as to how this has effected the Larger SME space, and unsurprisingly, the unanimous view remains the ongoing status quo is holding back business growth, investment and deal-making. A definitive outcome to the General Election should bring some much needed clarity. Regardless of the macro-environment the transactions below underline the fact that Asset Based Lending (and particularly BFS Corporate!) is well placed to support businesses in a variety of situations. We look forward to hearing from you soon.”

BEN SMITH, UK CORPORATE SALES DIRECTOR, BIBBY FINANCIAL SERVICES
