

# Construction Finance

Unlock the cash you need to manage and build your business

Construction Finance lets you advance cash against both certified and uncertified applications for payment. As the first independent funder to offer specialist finance for the sector over 20 years ago, we have experience across more than 80 trades. Whether you're a contractor or sub-contractor, our Construction Finance solution enables you to release the cash tied up in applications for payment (certified and uncertified) and invoices for work completed, supporting smooth cashflow throughout every stage of a contract.

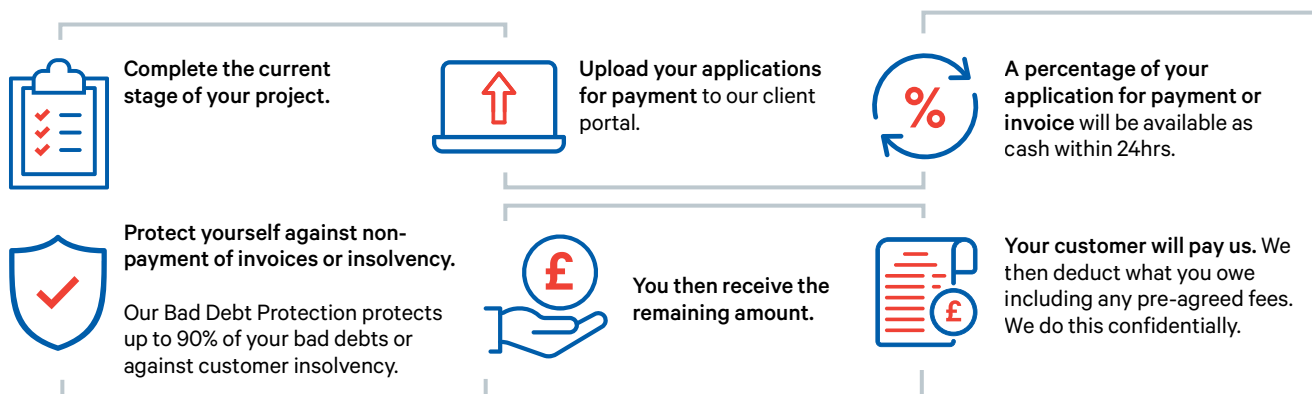

We have a specialist team supporting our construction clients and a strong network of partners that can support with legal and contractual aspects and who work with us to provide resources and insights to SMEs.

For businesses looking to re-finance or purchase new vehicles and equipment, our Asset Finance solutions give you the flexibility of hire purchase, leasing or refinance.

## Key benefits

- Provides funding against certified and uncertified applications for payment
- Access funds within 24 hours of submitting a payment application
- Flexible funding that grows with your business
- We offer confidential facilities; you stay in control of your customer relationships
